

The Rational Bible: Numbers

God and Man in the Wilderness

By Dennis Prager

KUPERARD

PUBLISHERS

If you think the Bible is irrelevant, irrational, or even, at times, immoral—and you have an open mind—*The Rational Bible* will change your mind and influence your outlook on life.

You will come to understand why the Bible and especially its first five books, the Torah, are the most influential books ever written. Equally important, you will understand how they apply to your life.

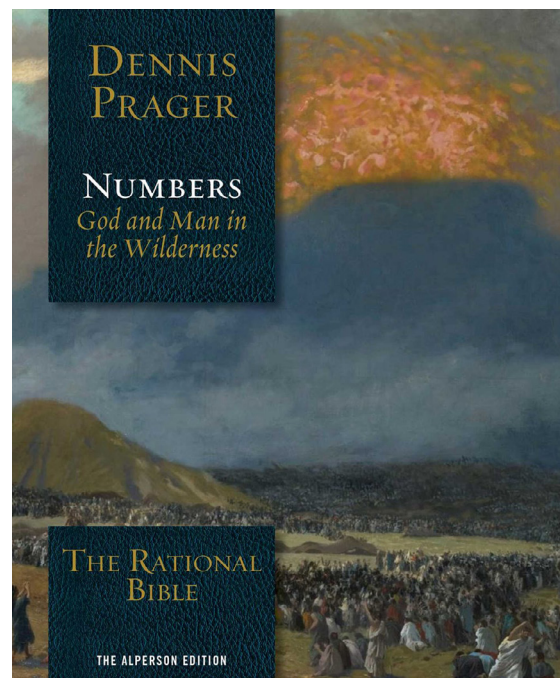

The Rational Bible, Dennis Prager's commentary and explanation of these five books—rooted in his expertise in biblical Hebrew and its grammar—is widely considered the most important modern Bible commentary. Read the thousands of reviews on Amazon—written by people of many faiths and of no faith—and you will appreciate why this is so.

The Book of Numbers—"In the Wilderness" in the original Hebrew—is the fourth book of the Bible.

The title of this five-volume commentary is *The Rational Bible* because its approach is entirely reason-based. The reader is never asked to accept anything on faith alone. In Dennis Prager's words, "If something I write is not rational, I have not done my job."

Few people alive today have influenced as many people as has Dennis Prager. In the words of the website, Powerline, "Dennis Prager is probably the foremost public intellectual of our time." Read *The Rational Bible* and you will understand why.

Dennis Prager is a *New York Times* bestselling author, columnist, and a radio talk show host. Equally at home in the secular and religious worlds, he taught religion and history at Brooklyn College and taught the Torah verse-by-verse from the Hebrew for more than twenty-five years. In addition to *The Rational Bible*, he is the author of, among other books, *Happiness Is a Serious Problem*; *Still the Best Hope: Why the World Needs American Values to Triumph*; and *Why the Jews?: The Reason for Antisemitism, the Greatest Predictor of Human Evil*. He is the co-founder of Prager University (PragerU), an internet site with over a billion views a year.
