Explore the natural landscape of Israel through the small, treasured objects that a child finds in nature.

Whenever the author-illustrator runs in a field, climbs a hill, or swims in the sea in Israel, she looks for something small to hold in her hand. She finds a basalt pebble from the ice-cold Dan River, formed from lava over 100,000 years ago. Israel's national bird, the hoopoe, leaves a feather in the grass at HaYarkon Park. Dead hood coral grows in the Red Sea, where fish play hide-and-seek. She holds small things in her hand and then leaves them in their habitats . . . for the reader to find.

Perfect for readers aged 3 - 8.

Miri Leshem-Pelly has written and illustrated more than a dozen children's books, many featuring animals and their environments. Her most recent books have been about creativity.

The Library binding is the best available binding and has been specially reinforced to last longer. It has thicker, almost indestructible boards which also cover the spine instead of reinforced cloth.
