The Fate of the Jewish Nation and the Destiny of the West

PUBLISHERS

A powerful, next-generation manifesto declaring that the future prosperity and ultimate fate of Western civilization is dependent upon the security and thriving of the Jewish people and the Jewish State of Israel—that the Jewish people's right to self-determination in their ancestral homeland demands a distinctly realist foreign policy and tight-knit US-Israel relations.

In *Israel and Civilization*, acclaimed journalist, legal expert, and pundit Josh Hammer makes a righteous case that the key to the prosperity of the West is the flourishing of the Jewish people and the Jewish State of Israel. Hammer's uplifting offense is our best defense against the enemies of the Jewish people's right to self-determination in their ancestral homeland. And as Hammer makes clear, manifesting the promise of Israel requires action by the United States and its allies.

Preserving the best of what's been thought and said throughout history and ensuring that there will be centuries more requires a West that is proud of its Jewish heritage. In other words, the continued existence of the Jewish people is inextricably tied to the endurance of Western civilization. Israel is the center of the battle, and *Israel and Civilization* explains why and how the Jewish state must win.
